

**REQUEST OF GENERATION OF HUMAN INDUCED PLURIPOTENT STEM CELLS (hiPSC)**

**RESEARCHER:** .....

**Centre:** .....

**Project title:** .....

**Legal issues**

- Do you have a research project for the generation of hiPSC?
- Can you deliver a copy of the donor information sheet provided to the donor?
- Can you provide us with a copy of (anonymised) signed donor consent form?
- Has an approval been obtained from a research ethics committee in relation to the proposed project (if necessary in your country)?

**Line generation**

- Original sample .....
- Cell type for reprogramming .....
- Reprogramming method:
  - Integrative:
    - Retrovirus
    - Lentivirus
  - Non integrative:
    - Episomal plasmids
    - Sendai virus
    - mRNA
